

# Our Vision expertise at your service

Vision solutions for industry

## The Industrial Vision

As markets become more and more competitive, quality control is increasingly a **must-have** tool for companies to stay ahead of the competition. Industrial vision helps you meet this challenge.

## Our Mission

- ➔ FDV is a **major player** in the field of global integrated solutions for industrial vision.
- ➔ FDV proposes innovative **solutions** to address the great range of inspection requirements.
- ➔ FDV realizes **efficient, reliable** and **easy-to-use** applications.
- ➔ FDV brings your company the means for **quality** improvement and cost reduction.

## Our Expertise

- ➔ More than **25 years** of experience in the field of industrial vision had allowed FDV to develop unique competencies.
- ➔ FDV assists you during **each stage** of your project, from the definition of the needs to the implementation of the solution.
- ➔ FDV designs a **customized, complete** and **ready-to-use** solution for you thanks to its software package Userpak.
- ➔ For several years, FDV was selected as the **best French PSI** (Partner System Integrator) by Cognex.

**FDV**

Française De Vision

## Why is FDV the vision solution that you need ?

- ➔ Numerous applications which have been running for more than 10 years prove the **efficiency** and the **durability** of our solutions.
- ➔ **Fully integrated** «turnkey» solutions.
- ➔ A wide range of inspection equipments ranging from **standard packages** to **customized solutions** fitted for your needs.
- ➔ User interface UserPak is **simple** and **intuitive**, fitted with tools to help in the optimization of your equipments.

## Our partner: Cognex

Cognex Corporation is the **world's leading provider** of vision systems.

The partnership FDV - Cognex brings you :

- ➔ Access to the latest technologies
- ➔ A wide range of Vision products
- ➔ Worldwide customer service
- ➔ Durability from the world's number 1 designer in the field of vision systems.
